Mrs. Broughton, our merchant's wife, found the famous cabbage snake in a head she was preparing for dinner. She said it was a well developed reptile about 4 inches long, perfect snake head and tongue; coiled up and jumped at a fly that pestered it, and struck with vengeance like other snakes. The upper half was deep red, while the other was paler when viewed with the naked eye, but spotted when put under a glass. She eats no more cabbage. We would like to hear from some of our doctors and scientists.

Answer to Livingston correspondent's question: You mean to say "Acts 21: 38. Repent and be baptized for the remission of sins." The word "for" is in some instances used as a conj. and in others it is a prep.—more frequently a prep., depending of course on meaning and use. A conj. usually connects only while a prep. connects words and at the same time shows a relation of its object with a preceding word. The obj. and prep. form an adjunct modifying the antecedent term. Hence, we can clearly see that "for" is a prep., showing a relationship between its obj. remission, and the antecedent term, repent and be baptized, "of sins," is an adjunct to remission. Now we can clearly see that the Jews, on the day of Pentecost were commanded to both repent and be baptized for the same purpose and can't be rendered otherwise unless we change the reading thus: "Repent for remission of sins and be baptized." I want no controversy.

We have no news but could fill our column with personals and visitors, but it would not be interesting. Some of our folks attended the fair at Somerset. Politics is putting on her electioneering dress and will warm things up by the ides of November. Poplar Grove church will receive the finishing touch this week, and quite a creditable structure for any country congregation or church.

Rev. James Cummins will preach at Mt. Pleasant and Poplar Grove this year.—Jep Mullius went visiting Sunday.—H. W. Brown and wife spent Sunday with J. N. Brown helping to make a long, wearisome day pleasant and fit did too. What a blessing good friends are when we come to the bed of affliction—only one thing on earth beats it and it is worth all else.

Now I will begin a series of Bible questions, running from Genesis along the whole Bible to Revelations: What is the first promise made to man after the fall? What law or command was given the antediluvians? What is the difference between the law of Moses, the moral law, and the law spoken of in connection with the prophets—the law and the prophets? I may have asked some of these before, but they have not been answered. These are for sisters in particular and the —. Rev. Sawyer, of M. E. Church, South, who resides at Prodhead, came to our place and made two speeches recently. He said some very interesting things about some of our citizens.—George Owens is wearing out by degrees; kept up now by opiates only.—O, how we dread death, but if we only fully understood what changes we undergo, what new order of things we enter, death would not be such a terror. It is a gate where two eternities meet; it opens, we step through leaving that and those that was or is most dear to us. Let us prepare to be with good people when we leave here!

BUCK VARNON.

## ARE YOU ENGAGED?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Benettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Sold by Mt. Vernon Drug Co., who sells and guarantees them; price 50cts a bottle.

## SAYERS.

J. R. Taylor bought of J. M. Craig a nice horse, "Deck," says he paid \$125, but we doubt it very much.

He also says he has quit the road for all time to come and that he intends to marry, settle down and go to living like somebody.

A number of persons from here are attending the Baptist Association at Pisgah this week.—M.

G. Dowell and Walter Owens have returned from the mountains.—Some few have begun cutting corn.

Miss Helen Sayers has returned from a several days' visit to Shelby City, Linnetta Spring and other points.—Fred Thompson, of Lebanon Junction, is visiting friends and relatives here.—John Cable, who has been in Indiana for past year,

has returned for a two month's visit.

Like our Brodhead correspondents, we would ask the people to report all items of interest to us.

We can't know everything that is happening and sometimes we forget what we do know. So help us out.—The writer attended the teachers association held at Maple Grove school house Saturday. The whole program was enjoyable, but most of it was the good dinner,

which one never fails to get when in that splendid community, but we lay down in our heat we sympathize with Bill Dooley, who, after

eating only two big pieces of roast,

one piece of ham, three pieces of chicken, two pies and a cake,

drank so much vinegar (just be-

cause the girls told him to) that he

could not eat any more. We also enjoyed a trip to the mines at Johnetta Sunday afternoon on the automobile.

We have traveled faster but we don't care to be on that car when it goes faster, although the motorman said he was running only half speed.

THREE JURORS CURED.

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler, of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsburg, county seat of Cleburne county, Ala.

He says: "While there I ate some fresh meat and some souce meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drugstore for a certain cholera mixture, but the druggist sent me

bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner.

John Cable, who has been in Indiana for past year, was ill with cholera morbus and the druggist sent him

one dose of it and was better in five minutes. The second dose cured me entirely.

strange how some persons can go about the world with a spirit of hate in their bosoms for certain persons and affairs from which they are never exempt. For years they pass and repass acquaintances and never speak, living neighbors they never commune together, and the best things they can say about the objects of their enmity are hard words and execrations. Often such conditions exist between blood relatives whose very ties of kinship should make them love and bear with each other if nothing else would. And, just as often you find members of the Church, professed Christians, harboring the spirit of implacable hatred, which is one of the devil's chief graces. No wonder the world is full of trouble and sorrow, and evil influences, when the cold specters of malignity are forever stalking among us. Only these strange characters would cross that dark chasm of hatred with a word of love and felicity, they would be surprised at the joy and peace it would bring to their souls.—Ex.

**LUCKY MISTAKE.**—When James Gordon Bennett the elder was editor of the Herald, Robert Bonner, publisher of the New York Ledger, was struggling to build up its circulation and decided to try a little advertising consisting of eight words—"Read Mrs. Southworth's new story in the Ledger"—and sent it to the Herald marked for "one line." Mr. Bonner's handwriting was so bad that the words were read in the Herald office as "one page." Accordingly the line was set up and repeated so as to occupy one entire page. Mr. Bonner was thunderstruck the next morning. He had not to his name money enough to pay the bill. He rushed excitedly over to the Herald office, but was too late to do any good. In a short time the results of the page announcement began to be felt. Orders for the Ledger poured in until the entire edition was exhausted, and another one was printed. The success of the Ledger was then established. Ever after that time Mr. Bonner was an ardent believer in advertising and a liberal purchaser of space.—Ex.

A telegram from Sherman says the body was detained for the Coroner's inquest, and that it is now positively known that he was murdered. ### FIFTY CENTS

In some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

Mrs. D. N. Williams, the most aged of them all, when the team was going at "break-neck" speed, made a jump for her life, which with the result of a little soreness, was successfully made. A few doses started the brick dust, like fine stones, etc., and now have no pain across my kidneys and I feel like a new man. FOLEY'S KIDNEY CURE has done me \$1,000 worth of good."

### SAYS AN EXCHANGE.

"Thousands of people will be shocked by his avowment that Christianity has a meaning even in the problems of daily life; even to the choice for office of good men or bad. Who will deny the truth of what he says, and yet how many will find it really shocking to declare in audible tones that religion reaches into such a humdrum act as depositing a piece of paper at the polls? The man who wrote that article disbelieves some things which Peacock, Murphy and Rockefeller believe, but as a citizen he has never failed to do his duty, just as if every accepted declaration of the copybook were a truth."

"If Christians should vote their duty to God at the polls, they would carry every election, and do it with ease. They would elect every clean candidate in the United States, and defeat every soiled one. Their prodigious power would be quickly realized, and afterward there would be no unclean candidates upon any ticket, and graft would cease. No church organization can be found in the country that would elect men of foul character to be its shepherd, its treasurer, and superintendent of its Sunday-school. It would be revolted at the idea; it would consider such an election an insult to God."

"Can a man imagine such a thing as God being a Republic or a Democrat and voting for a criminal or a blackguard merely because party loyalty required it? Then can we imagine that a man can improve upon God's attitude in this matter, and by help of professional politicians invent a better policy? God has no politics but cleanliness and honesty, and it is good enough for men."

"A man's second duty is to his family. There was a time when a clergyman's duty to his family required him to be his congregation's political slave, and vote his congregation's ticket in order to safeguard the food and shelter of his wife and children. But that time has gone by. We have the secret ballot now, and a clergyman can vote for God. He can also plead with his congregation to do the like.

"Perhaps. We cannot be sure. The congregation would probably inquire whom he was going to vote for, and if he stood upon his manhood and answered that they had no Christian right (which is the same as saying no moral right, and, of course, no legal right) to ask the question, it is conceivable—not to say certain—that they would dismiss him, and be much offended at his proposing to be a man as well as a clergyman.

"Still, there are clergymen who are so situated as to be able to make the experiment. It would be worth while to try it. If the Christians of America could be persuaded to vote God and a clean ticket, it would bring about a moral revolution that would be incalculably beneficial. It would save the country—a country whose Christians have betrayed it and are destroying it."

The Russian press and people are said to be taking a more favorable view of the proposed National Assembly.

To the Pacific Coast—to California, Oregon, Washington—round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado—see Salt Lake City—visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.
